

THERAPY DOGS INCORPORATED
P. O. Box 20227
Cheyenne, Wyoming 82003
1-877-843-7364
therapydogsinc@qwestoffice.net

Dear Friend,

Thank you for your inquiry regarding membership in Therapy Dogs Incorporated. A dream by our founders, Jack and Ann Butrick, has now become a national organization, several thousand members strong.

Qualifications for Therapy Dogs Incorporated begin with a friendly dog, any breed or mix and a desire by the handler to share with those who are no longer able to own a pet. Dogs must be one year of age to be tested and observed.

Our process begins with a 'test' done by one of our tester/observers in your area. If you and your dog are ready, you move to the next step of three supervised visits. Your completed test, along with your application, and release of claims form should be submitted with your dues to our office for review and processing.

The following items are things you will want to bring with you to your initial test that you have scheduled with the Tester/Observer:

- TDInc. member application
- Prospective member Waiver
- TDInc. test
- Copy of proof of rabies vaccination
- 4' or shorter leash & TDInc. approved collar
- Water for dog
- Bag for clean up
- Paper towels

A list of the Tester/Observer s in you area, the application, test, and copy of our guidelines are enclosed.

You may also find additional forms on our website WWW.therapydogs.com.

We look forward to hearing from you!
